## OUR NEW SCHOOL BUILDING.

Americans pour out their wealth with lavish hands whenever their little ones are concerned. There is no other way in which they are so prodigal. Immense factories are at work the year around to provide toys for Christmas and railroad trains groan with their burdens of trifles weeks before the holidays. The children's desires are met before they have them. No game is too costly, no amusement so expensively set as to stop boys whose fathers were rocked in sugar troughs and who went to church in home made woollens. In educational matters the outlay every year is almost incredible. Our facilities have increased from a log schoolhouse and a McGuffey's spelling book to the most elaborate forms of study, in the state's latest piles of architecture. Just at present Reno is far behind the age in this matter. Her scholars are crowded together so closely that comfort is impossible and the hours devoted to study are almost wasted. The danger of disease is very largely increased and the benefits are in no way what they might be. The school trustees are now looking up a place to build a school-house worthy of Reno. They have several in view, and any of them would be a fine location. The plans doubtless will be to put up a first-class building as far as the money will go. One that can be added to without marring the beauty of the whole. Such a plan seems very commendable in a growing town, where a house large enough this year might be too small within the next two. On the other hand, if the town gets to be a city, covering two or three square miles, the additional room necessary might, perhaps, be better located in a separate institution entirely, which would prevent unnecessary travel. These questions will be duly considered, and the action of the trustees will no doubt be approved by everybody.

## THE TRUE SOLUTION.

A Pacific coast congressman less than a year ago introduced a measure cutting down the representation of the South to the proper proportion of the vote. Dispatches of this morning:

Of the 43 Democratic members of the senate, the South furnishes 30 and the rest of the country 13. In distributing the chairmanship of 29 regular senate committees, the caucus committee gives to the South 20, and 9 to the rest of the country. So far as the senate is concerned, therefore, the South will, in the words of Blackburn, "be charged with the shaping of the legislation of the land." In other words, the nominal representatives of 14,000,000 of people will control the legislation of 40,000,000 or to put the case more exactly, the actual representatives of a population of decidedly less than 10,000,000 of Southern whites—the 4,500,000 of the black in the South not being represented in the majority of the senate at all—will shape for some years to come the law-making of the people of the United States. Political theorists are much addicted to talk about "the brute force of a majority." Would it not be well to have some exhaustive discussion of the not entirely new phenomenon of "the brute force of a minority?" With the north filling up, and the South standing still or retreating in numbers, this is manifestly an unfair division of power and one that cannot last.

## EDITORIAL NOTES.

Since the bible has been relieved of catching bullets fired into men's vest pockets, it has had quite a dull time. It was found a new field, however. A Green Bay man used his to knock a burglar down with.

The man who stole the legs from Uncle Smith's stove is beaten by a Russian man who stole the windless from the Williamsburg mine. Wonder if there was any one down in the mine at the time.

Prayer to the extent of over \$65,000 have been committed by the Dupont street congregation. Reno's better keep her bar-bucket handy if she incorporates.

There is a crystallizing of sentiment both for and against the new constitution. It promises to be a more exciting contest than was expected.

Spiritualism is becoming rampant in Massachusetts. It has already reached the height of an epidemic. They had

better quarantine the fools and stop it.

The railroads of Illinois owe that state over two million dollars for taxes. Our Nevada statesmen could learn the suckers a trick.

The Chicago Times suspended last week—for one day. Owing to a defect in the press it didn't go off.

The Eureka Sentinel wants more snow, and the legislature has adjourned. You spoke too late, George.

The Stockton Herald heads an article "The discovery of matches." We didn't know matches grew.

The Italian Colony.  
(S. F. Alta.)

The fever of colonization seems to have taken hold of the Italians. One of Garibaldi's sons, Menotti, and one of the latter's fellow-soldiers, named Achille Fazzari, are reported as the initiators and leaders in the enterprise. The plan is to plant a colony on the southern coast of New Guinea, the same to be called "Italia". Three thousand Italians are to leave Taranto for that destination during the coming summer. Papua, or New Guinea, is the largest island of the world, next to Borneo, calling Australia a continent. It is south of the Equator, lying between that and about twelve degrees south latitude.

Should this Italian plan of colonization succeed, the people whose representative discovered America will have got footing upon an island which may in the future become one of the greatest nations—Republican—of the earth. It is tropical, and that fact may be in the way of its progress. The necessities of life may be too easily produced. The necessity of exertion, the invigorating influence of a cooler climate appear to be necessary to bring out the vim of manhood, mental and physical. But Italian native vigor, industry, and ambition, may overcome all this; and if so, Italy will have a colony large enough for all her emigrating people. May this new Pilgrim venture prove as successful as that which landed at Plymouth.

## About Increasing Railroad Rates.

A report was circulated about Wisconsin last week that the Central Pacific railroad company had issued instructions to agents and conductors to increase the rates of fares and freights in Nevada ten per centum. A representative of the Silver State interviewed Station Agent Young relative to the matter, and was informed by that gentleman that he had received no notice of increased rates. He further stated that though the company is now authorized by law to charge ten cents per mile for fares and twenty cents per ton per mile for freight, their maximum passenger rates are less than eight cents per mile and their maximum freight rates fifteen cents per ton per mile, and he had no official notice of the rates having been increased.

## The Lottery Case.

[Paris Cor. of the New York World.] It is lucky the grand lot was won by a workman, and it is unlucky. The first, because if a richer man had won it there would have been no end to the insinuations of foul play; the last, because there will be no end to the waste of poor men's resources in such ventures. Even Aubriot had spent rather more than he could afford, for he had bought eight tickets, and would in all probability have bought twelve, but his wife pulled him up with a scolding. The last ticket bought, by the way, was the one that gained the prize. How are the poor fellows henceforth to resist the temptation to make their fortunes at a stroke at no matter what cost of present privation? The opportunities are legion, though lotteries are forbidden by law save for charitable purposes or the encouragement of the arts.

## Chinese in North Adams.

The fifty Chinamen making shoes in North Adams, Mass., associate freely with the Americans. Some have joined the Baptist church, but the most are still idolaters. They live as one family, in a corner of the shoe shop partitioned off by itself. Chinese cooks prepare their food. One of them started a tea store some time ago and has gotten rich. He married a white woman of good family in the south, and the happy pair are keeping house in fine style in the fashionable quarter.

## The Only Exception.

[Puck's Ban.] But one paper in America has alluded to the Pullman car robber, Angell, without alluding to the "fallen Angell." That is a Welsh paper published at Jonesboro. That paper simply says, "Angellokkywog-zig-zow-widk Fullinickkyuknowgw-wadoolinaki." It is cheering to see a paper that will refrain from attempting a joke, when there is so good a chance.

## Not So Bad After All.

The famous Emma mine which caused Senators Bob Schenck and Wm. M. Stewart as much notoriety a few years ago, is looking well. It is worked by a company known as the American Emma mining company, who have nothing to do with the old one. The rock carries 900 ounces of silver and 37 percent of lead to the ton.

## A Fool Killer.

John Henry Meyer, of Chicago, spent a legacy of \$4000 in six weeks, and then shot himself in the forehead.

Statisticians affirm that counties raising the most onions have the fewest marriages.

Austin has Grasshoppers.

JOTTINGS.

Plum trees are in blossom at Salt Lake.

Ex-Governor Bradley died this morning.

Job work cheaper than ever at this office.

Assessment on New York is delinquent to-day.

D. C. Wheeler drove a nice band of sheep through town to-day to their spring range.

A. T. Rice, the popular dairyman, milked fifty cows. He sends a good deal of his "crop" to the Comstock.

Painters are perched on the very top of the tower on the Catholic seminary. They must feel the wind.

The alfalfa around the courthouse is springing up bright and green, despite the wintry weather.

Parties wanting board and lodging may find something to interest them in the 50-cent column.

Old Boreas is blowing his breath this way to-day. The dust flies and the men on the roofs hang on by their toe-nails.

Workmen will come up from Sacramento to paint the railroad building. They are expected in a few days.

Jo De Bell is quietly at work repairing watches, clocks and jewelry, at his house on Commercial row. He is a No. 1 workman and deserves all the work he can do.

W. F. Edwards, the safe editor of the GAZETTE, is in Carson to-day hobnobbing with the state dignitaries. He will probably return this evening.

I. T. Benham has put a force of men rebuilding the burnt portion of Barnett Bros. building. The floor will be raised a foot, and a new and handsome front substituted for the present homely one.

Mr. Erick, the popular dispenser of dry goods, so long with Barnett Brothers, has received a full list of samples from the best houses in San Francisco. He will exhibit goods and take orders to be sent for. Call on him.

Big Smoke and Little Fire.

The smoking pile in front of Manning's is a dangerous looking place. A GAZETTE reporter has been watching it to see what kind of goods will hold fire the longest. One man says white lead, another dried apples, another ham, and another dried beef. Three or four teams are at work hauling it away and dumping it into vacant lots west of town.

Thomas Zeller was examined night before last by Drs. Lewis and Dawson and found to be a subject for the asylum. He has not yet been committed.

See the card of Mr. Bosch, who has every thing you need in the way of iron, paint and glass to build a house.

CARSON'S CREME DE LA CREME.

A Society Club on its Travels in Search of Pleasure.

The Au Fait Club, at Carson, has had its morocco-clad toes tramped on again; this time by the Entre Nous, of Virginia City. It seems that a couple of years ago

THE ENTRE NOUS INVITED

the high-toned mint clerks, deputy state officials, and cigar sellers to attend one of their parties, and the Au Faits came home with a gene feeling in the neighborhood of their self-conceit. They concluded to try the effect of their charms upon their Reno neighbors, and, after some little diplomacy, the Au Faits came here to attend a party given by the

RIVERBIDE CLUB.

They arrived about the time the music started, and, sad to relate, there were no carriages, no reception committee at the car door, no carpet laid across the street to the entrance of the Academy of Music, where the light was streaming out to their very feet. What to do they did not know; nobody had a map of the town, and no back to Carson until morning. Under pretense they walked,

ACTUALLY WALKED

across the street, and that too, sometime after the sun was down. An Au Fait never goes through Reno now without pulling down his vest and buttoning up his coat. Last week the Entre Nous again dropped on themselves. The Au Faits sent a glit-edged acceptance of an invitation to be present at a reception tendered to Governor Kinkaid. They chartered a

A SPECIAL TRAIN

and rolled into the depot at Virginia expecting to find two rows of beautiful maidens waiting to strew flowers in their path or, at least, a brass band and a coach and four to carry them to the dancing hall; but in vain. No beautiful maidens; no coach appeared. They found themselves obliged to walk, something they are very little used to at home, as they all own

BEAUTIFUL CARRIAGES

and have gold-plated harness for their neatly clipped Arabian horses. Since that hour the name of the ill-fated city of Virginia has never been mentioned at the capital. When a resident of Eagle valley by any chance happens to look that way, he crosses himself and turns around. That this thunders is thus, is a matter of

GREAT REGRET TO ALL

The unfortunate and misguided efforts of the poor, unsophisticated citizens of Virginia and Reno to give the proper degree of "long" to their greetings to the Au Faits, is a matter which causes the mouths of the great chasms on the Comstock to twitch, and the Truckee river to strike right out through the sagebrush. If only the two towns could get together and give

ONE REAL NICE PARTY

just to suit the Au Faits and then die how happy we would be. Conference committees ought to be appointed at once and all the details arranged. If no one could go to the depot to meet the visitors, strings leading to the hall could easily be arranged the same as is done by parties exploring caves. The rooms could be lighted by electricity to give the guests a home feeling and if necessary,

BAKE BRUSH FROM EAGLE VALLEY

could be used to decorate the walls. All the new dances could be danced without calling, the same as the colored waiters do at the Palace, and the Au Fait heart made happy by everybody devoting themselves exclusively to them.

Nearly a Funeral.

Mr. Edwards' enterprise came near costing him his life yesterday. After the paper went to press he found it necessary to stop it for a moment and shifting the belt over to what he thought was a loose pulley but which had been fastened to the shaft without his knowledge, he put his hands on the belt to stop it when it took him bodily into the gearing in an instant. Fortunately for him the jar he gave the belt when he struck against the wheel extended as far as the engine room and strange to say threw off the main belt. But for this most lucky accident he would have been whirled around the shaft and had his bones badly broken if he had not been cut in two. As it is he escapes with a few bruises.

Samples of Dry Goods.

Mr. Enrich, of Barnett Bros., received a large assortment of samples of all kinds of dry goods from one of the largest houses in San Francisco. Goods can be ordered by samples and they will be filled exactly and promptly. The samples consist of Dress Goods from 20 cents on, Cashmere, Ladies' Cloth, Table Linens, French Calico, White and Light-Figured Piques, Check Nankeen, and even Black Silk Velvet and Satin. Domestic Goods like Mullins, Sheetings, Spreads, Blankets, Ladies' and Children's Hosiery can be ordered verbal. The prices will suit the present contingency. All goods are very cheap. Mr. Enrich can be seen at C. J. Brookings' Variety store, a few doors below the Reno Savings Bank.

Small Business.

A couple of chickens belonging to an employee of the V. & T. R. R., flew over to a neighbor at the time of the fire. As soon as he got a place fixed he went to get them, but was refused, the parties saying the chickens were their own. They compromised by dividing.

The Tybo Failure.

The checks of the Tybo Consolidated mining company, a company doing an extensive mining and smelting business at Tybo, Nye county, have been dishonored by the San Francisco banker of the company, Daniel Meyer. When the news reached Tybo that the company's checks were dishonored, the people were at first dazed, but recovering their wits, made a grand rush for the courts to get out attachments. After covering the company's property with attachments, they began attaching each other, and for a time the wildest excitement reigned; but it subsided at length, and an agreement was entered into between the superintendent of the company, N. S. Trowbridge & Co., and the employees, by which the mine and works were to be temporarily run. Matters remain at this stage at present, but what the end will be, no one can tell.

The failure of this company is a blow at the prosperity of Nye county, and is peculiarly distressing to the people of Tybo, whose occupation and prosperity were wholly dependent on the company. The company employed nearly 250 men, and produced about \$75,000 in base bullion per month. The cause of the failure may be attributed to high taxes, the heavy discount of bullion, and to the lack of transportation facilities.

More Trouble.

There was a man came to Reno some time since who wanted to try his fortunes in a large town, and therefore came past Sacramento, Grass Valley, Blue Canyon, and all those places and settled here. He made a large fortune and invested it in a watch and chain which got burned up in the big fire. Rising, however, like brave and beautiful Phoenix from the fire, he cast about for something wherewith to eke out the miserable pittance he earned as a newspaper proprietor, and thus provide for his hungry wife and weeping babe. He caught sight of J. D. Bruner, agent for Macneale & Urban's safe, and shouting "Eureka!" several times in a loud and distinct tone of voice, fell upon his neck and wept. Mr. Bruner at once made him his agent for this county, and gave him full authority to bore anybody who will listen, until they order one of his revolving, double-enameled, ten-stamp, lathe-work, coal-burning safes, with a French mirror in the back. The first letter of the man's name is Will F. Edwards, and he says he can sell safes to beat all. He sold a man one this morning, who says he is going to keep it to be buried in. Call and see the young fellow.

A Strong Team.

The GAZETTE announces to-day the birth of a new firm, that of Knust & Jones. Their advertisement tells the balance of the story. They are old residents and have lots of friends, know their business and expect to succeed. They have a good stock of hardware and cutlery, cigars, tobacco, cigarettes, stationery, fancy goods and blank books. The new firm has the best wishes of the GAZETTE.

A Grand Plan.

Mr. Lake thinks of putting up a fine brick building next to the Odd Fellows building the front to be divided into stores and the back part to be a fine theatre. Such an improvement would be a worthy monument of Reno's life and luck.

Another New Corner.

Mr. Levy, an old resident of Carson and a live business man has decided that Reno needs his presence. He has, therefore, gone to New York for a first-class stock of dry goods which will be opened about the first of April near the Odd Fellows' building.

Very Ill.

Mr. R. R. Parkinson, editor of the Carson Tribune, is reported dangerously ill in San Francisco. Mrs. Parkinson has gone down to be with him. Meanwhile Ed makes it lively for the boys.

Going for Goods.

Gray & Isaacs both go below on Monday night to finish making purchases for their grand opening, which will take place about the fifth of April.

Paints and Oils.

F. Bosch has received a big stock of Paints, Oils, Glazes, Looks, Nails and all kinds of building material, which he will sell lower than ever before in Reno. Give him a call.

New Store.

Having recently withdrawn from partnership, I will open a store April 7th, on the east side of Virginia street, in the building formerly known as F. C. Chasess, with a complete stock of millinery and fancy goods, consisting of all the latest styles, thereby enabling me to sell cheaper than ever before. It is impossible for ladies purchasing goods from my store to get anything out of style, as my stock is all new to commence with. The goods need only to be seen, they will tell for themselves. Orders for goods sent by mail or express will receive prompt attention.

For the Sufferers.

S. Jacob returned this morning with a large and varied assortment of piece goods and tailors' trimmings, which he will make up at his usual low rates. Now is the chance for the sufferers to get good clothes at a bargain. He has put up a small building opposite Sunderland's boot and shoe store, on Virginia street, where he can be found.

**MRS. H. A. MOORE'S SCIENTIFIC HAIR PRODUCER.**  
Mrs. H. A. Moore would announce to the ladies and gentlemen who desire the perfect adornment of a fine suit of hair, that she has patented her celebrated Hair Producer, which has now been before the public for a space of two years, and has in every instance given entire satisfaction as to what it promises. No mineral or dangerous substance is used in this preparation, and it is guaranteed to prevent hair falling out after four applications. Well-known cases of long standing baldness have been successfully treated (as per testimonials in my possession). It will produce a full flowing crop of hair on all stages of baldness, even to its most pronounced state. It will prevent hair from turning gray.  
Preparations forwarded to all parts of the country.  
ONE BOTTLE, \$5; THREE BOTTLES, \$10.
